

E.TEXTINT CORP.

Green Fashion Trim

Eco-Friendly Heat Transfer Manufacturer

The current trend in textiles is towards functionality and environmental protection which suits clothing and accessory including heat transfer. E.TEXTINT is dedicated to developing functional, eco-friendly, and innovative customized heat transfer labels, decorative film, and adhesive tape products to meet the needs of the market.

E.TEXTINT has been established in Taiwan for 40 years, designated for use by more than 100 global brands, and selected as its suppliers including NIKE, adidas, Lululemon, The North Face, etc. Our products have passed Oeko-Tex Standard 100 Level 1 certification. In order to maintain quality, each manufacturing process is completed in our own factory. We have a professional technical support team to assist customers of garment factories to deal with product hot pressing operations and other issues. Our test laboratory is not only approved by Intertek but also certified by brands such as NIKE, adidas, New Balance, and Under Armour to provide customers with reliable test reports and shorten product development.

Mr. Chen, the founder of E.TEXTINT, said "Corporate will focus on product competitiveness and sustainable development of eco-friendly products." Our goal is to develop and create new needs for the textile industry and integrate supply chain partners to use sustainable materials in purchasing for the purpose of environmental sustainability.

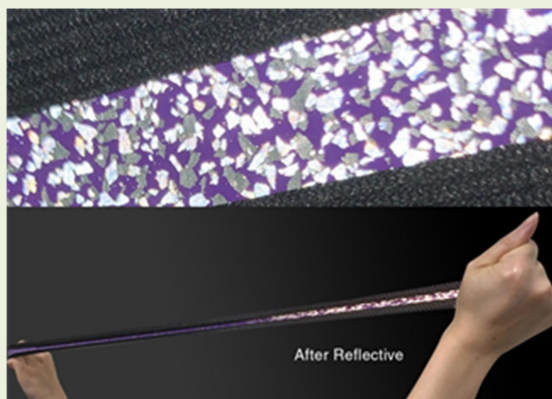

Innovative Eco-Friendly Products

E.TEXTINT develops unique quality every season to provide customers with diverse choices of heat transfers which are made from eco-friendly materials but still keep aesthetic and functionality such as elasticity and reflective quality. It not only further enhances the texture in the design of brands' apparel but also leads us to move towards the goal of sustainable development.

1. Sugarcane Bagasse Heat Transfer (Nature Touch)

2. Sliver Reflective Recycled Heat Transfer (Beyond Plus Elastic Series)

3. BIO-Based Heat Transfer

- BIO-Jelly
- BIO-Matte
- BIO-Transparent Iridescent
